- Do not attempt to re- sterilize and reuse.

## Storage conditions:

- Store in clean, dry & insect free place.
- Avoid exposure to acidic / corrosive fumes to avoid corrosion /rust.

**Step 1**Peel opens the blister pack and take out the Dispojekt safety

Step 2

Push the safety needle onto a standard luer slip connector.

**Step 3**Pull back the hinged cover to expose the needle.

Fill the syringe with medication.

Orient the needle to enable bevel to face upwards. Administer the injection and close the needle cover immediately after use.

To activate the locking mechanism, press the needle cover against a hard surface. You will hear a 'click' when the needle cover is locked. Dispose the used syringe into the sharps container.
