Business Highlights & Achievements:

HMD Group of Companies founded in 1957 pioneered Glass Syringe manufacturing in India and thereafter Disposable Needles and then a comprehensive range of sizes of Auto Disable Syringes for the curative segment

India's Leading Medical Disposable Manufacturer.

Top 5 Manufacturer World Wide of Disposable Syringe and Auto Disable Syringes, I V Cannula, Surgical Blades and Scalp Vein Sets.

About

HMD was founded in 1957 and is a closely held family Corp. Its Primary markets are India, USA, Europe, Middle East and secondary markets – Africa and South East Asia.

HMD has 7 Plants in different locations in South Asia and has over 3,500 employees. Its major products are Single use Syringes, Single use Needles, I. V. Cannulas, Safety I. V. Cannulas, Surgical Blades, Scalpels, Scalpvein Sets, Nonreusable (AD) Syringes, Blood collection tubes, Blood collection needle and Blood Collection Set.

All the products are marketed through an established national and international distribution network of more than 4,500 dealers to ensure ready availability even in remote areas, and effective customer service support.

HMD marketing philosophy is to manufacture products of international standard and attempt to offer them for the benefit of patients and doctors at affordable prices. HMD manufacturing philosophy is to achieve the best quality using the most economical mass-production technology, harnessed through a dedicated production team, in a harmonious industrial atmosphere as per requirement of ISO 9001, ISO 13485 and the European M.D.D. Products carry CE Mark. The corporate philosophy of preventive maintenance of human relations ensures that there is no need for any labour union to exist.
